# **EXHIBIT 1**

September 24, 2020

Dear Judges Daniels and Netburn,

We are the children, the parents, the spouses and the siblings of the 2,977 persons killed in the September 11, 2001 Attacks, as well as the thousands of people injured and sickened that day. We have waited 19 years and 12 days for this very moment on our path to truth and justice.

The Court has graciously acknowledged many of us at hearings, and we appreciate your dedication to seeing that our quest for justice moves forward to resolution.

We understand that Saudi Arabia asked you to set a deadline of three months for the completion of depositions of Saudi government witnesses. We also know that you are considering the FBI's withholding of important documents.

We ask that you allow the needed time to conduct in-person depositions, and that you not permit the clock to run out on our case by setting a fixed deadline. For 19 years, we have made deep significant personal sacrifices and investments of our time and emotional energy to bring this case forward to this point. We want our legal representatives to be face-to-face, in the same room with the witnesses at these depositions, as this is the only effective way to discover who was complicit in these horrendous attacks.

This case is historic, unprecedented, and will serve in the annals of history for decades to come. We understand that justice takes time. We have waited patiently for our time and we are more than willing to wait longer so that this judicial process can run with the respect and thoroughness that it deserves.

Please do not set an artificial deadline based on the idea that we want to move forward quickly. What is most important to us is to allow the necessary time to gather the truth. Let us not alter the history books by rushing the judicial process.

Sincerely,

John Ashton, Father of 21-year-old, Thomas J. Ashton, WTC North Tower

Re: *In Re: Terrorist Attacks on September 11, 2001*, 03 MDL 1570 (GBD)(SN)

Dear Judge Daniels and Magistrate Judge Netburn:

We are the children, the parents, the spouses and the siblings of the 2,977 persons killed in the September 11, 2001 Attacks, as well as the thousands of people injured and sickened that day. We have waited over 19 years for this very moment on our path to truth and justice.

The Court has graciously acknowledged many of us at hearings, and we appreciate your dedication to seeing that our quest for justice moves forward to resolution.

We understand that Saudi Arabia asked you to set a deadline of three months for the completion of depositions of Saudi government witnesses. We also know that you are considering the FBI's withholding of important documents.

We ask that you allow the needed time to conduct in-person depositions, and that you not permit the clock to run out on our case by setting a fixed deadline. For 19 years, we have made deep significant personal sacrifices and investments of our time and emotional energy to bring this case forward to this point. We want our legal representatives to be face-to-face, in the same room with the witnesses at these depositions, as this is the only effective way to discover who was complicit in these horrendous attacks.

This case is historic, unprecedented, and will serve in the annals of history for decades to come. We understand that justice takes time. We have waited patiently for our time and we are more than willing to wait longer so that this judicial process can run with the respect and thoroughness that it deserves.

Please do not set an artificial deadline based on the idea that we want to move forward quickly. What is most important to us is to allow the necessary time to gather the truth. Let us not alter the history books by rushing this part of the judicial process.

Respectfully submitted,

Stephen and Elizabeth Alderman, parents of Peter C. Alderman (WTC)

Michael Bavis, brother of Mark L. Bavis (Flight 175)
